TIMES' SPECIALS.

Great Sham Battle at Halifax—McNab Island Captured by the Fleet.

The Empire Fighting the Supposed Annexation Sentiment—Canal.

Special to THE TIMES.]

New Westminster, Oct. 11—The inquest on the body of Durant was concluded yesterday afternoon. The jury rendered a verdict of death by a shotgun wound received at the hands of H. Jones. To-day Jones was committed to stand his trial at the next assizes.

To-day Chung Yuey, a Chinaman of Victoria, is exhuming the body of one of his countrymen buried in Douglas road cemetery, for the purpose of sending it back to China.

The celebrated case for libel of Fagan *vs.* Cooper is arranged to come up for trial on Tuesday next.

FROM WINNIPEG.

Time for An Understanding With the United States.

Special to THE TIMES.]

Winnipeg, Oct. 11—The Toronto *Empire* yesterday asks: "Has it ever happened in the history of the world that one country took such liberty with the possessions of another as the United States is taking with those of Canada?" In a long editorial the *Empire* answers this in the negative and concludes thus: "We are five million British subjects, and although in the past we have submitted peacefully to the United States, the time has arrived when the dignity and honor of both countries call for an abandonment of the attitude which conveys a standing insult and menace to the Canadian Dominion."

Tom Buckley was to-day sentenced to 15 years for manslaughter. He killed his paramour, a woman named Bertha Usher.

ONTARIO AND QUEBEC.

Outlaw Morrison Offers to Surrender—Rideau Canal.

Special to THE TIMES.]

Sherbrooke, Quebec, Oct. 11.—The outlaw Morrison has sent a message to the Attorney General that he will give himself up if the latter will consent to the venue being charged to Quebec district. This will probably be done.

Kingston, Oct. 11.—The Kingston Board of Trade appointed a delegation to go to Ottawa and urge on the Government the necessity of deepening and improving the Rideau Canal, which has fallen into a disgraceful condition.

FROM HALIFAX.

Sham Fight—McNab Island Captured—Fleet Defeated.

Special to THE TIMES.]

Halifax, Oct. 11—A great sham battle took place yesterday between the garrison and the fleet, the latter attempting to take the place by assault were beaten back everywhere except at McNab Island, which was captured as in a real war. This, however, would be no advantage, as the island is commanded by the guns of six forts which would batter it to pieces in short order.

FROM CARIBOO.

Autumnal Tints—The Triangular Fight—Mining, &c.

From Our Own Correspondent.]

Barkerville, Oct. 5—The yellow and browning leaves of the deciduous plants again enliven the ever-varying panorama of nature, making the pines look darker by contrast and warn us that winter is coming. The really delightful weather that we have had lately has given every project a good start.

The contractor for the mill has his main building finished in good shape. The machinery has arrived and is safely housed. The brick-yard, under the efficient management of Mr. W. C. Price, has been making the most of the fine weather; and the ubiquitous Martin, assayer and mill superintendent, has been doing his level best.

The Flynn boys have made a good clean up on Mosquito, and have gone over to Antler to assist McKee, O'Neill and Mike Cantwell, in making the yellow iron disgorge some of its hidden wealth.

The Nason Co. are steadily crossing the old Antler bed having beat the water and are running double shifts, in bedrock at present, just touching the gravel overhead, so we may hear good news from there any day.

The news that Mr. Barnard was offering himself as a candidate for the Commons was received with a smile of amusement and incredulity. I wonder what would be thought of any one from Cariboo district who should have the temerity to contest a district on the Island? I fear they would think his vanity had got the better of his reason. But then we hear that Mr. Barnard is going to get us a railway! That seems quite natural for a man who owns an interest in a stage line! Mr. Rogers has flung his banner to the breeze, so that we are to have a sort of tri-angular-midshipman — easy sort of duel, in which McLeese will (figuratively) annihilate Barnard, Barnard will crush Rogers, and Rogers will scatter the brains of McLeese. Let us hope that the fittest may survive.

Judge Harrison held county court on Monday and made all possible speed for the lower country next day, where the benign influence of the sea breezes seem to be more congenial than the bracing atmosphere and ozone of the pines in the mountain region.

SPORTING NOTES.

The Maori football team are the chief objects of England's interest at present. There are 25 good-humored giants, six of them being full blooded Maoris, 10 half castes, and four Europeans born in New Zealand. They have come to try conclusions with English football players, and begin with a match against the Surrey team at Richmond, Wednesday. They come into the field wearing ma's, and play with bare toes. They have already kicked themselves into the championship of Australia. They are all so heavy and have grown so fat during the voyage, that betting favors the English players. For the first match they play with the Rugby rules, and are reported to be wonderfully active. The decision of their umpires will probably be respected, as they are armed with spears.

R. A. Anderson & Co.

Real estate, insurance and collectors. Correspondence solicited. 112 Cambie St., Vancouver, B. C.

W. C. T. U.

Close of the Convention—Proceedings of Last Meeting.

The election of officers was the first business before the Convention on reassembling at 2 o'clock Wednesday. The following were the officers elected: President, Mrs. Jas. Cunningham, New Westminster; First Vice-President, Mrs. Jenkins; Second Vice-President, Mrs. Middlebrook; Correspondent Secretary, Miss McDougal; Treasurer, Mrs. Hemlaw. The election of subordinate officers and the transaction of other important routine business occupied the balance of the afternoon.

A fair audience filled the Blue Ribbon Hall in the evening. The meeting was opened with the usual devotional exercises.

Mrs. Jenkins read an interesting and instructive paper on the work of the W. C. T. U., after which Mrs. Grant addressed the meeting at some length on the franchise.

The question box was then opened, and some time was devoted to answering the queries therein given. Is there a country where all intoxicants are forbidden? brought the reply that the Koran commanded all Moslems from drinking intoxicants. In Madagascar the same law prevails.

Mrs. King, in replying to the question, "Is Temperance Reform a Secular Work?" said that Archdeacon Scriven answered that query fully, when he said that, "Temperance was the daughter of Religion." The question, "What is the speediest way to gain Prohibition?" was answered "By woman's ballot."

Mrs. Chase, of Chicago, replied in a very humorous way to the question, "What is the sin in the home life most likely to lead to intemperance?" and agreed with Gough, who thought that disobedience was the most dangerous sin of the home.

Rev. J. E. Starr addressed the meeting in his usual forcible way, taking for his theme, "The Liquor business, a Leech," and thoroughly condemned the liquor traffic.

The Hon. John Robson followed on the same subject and denounced the Club Theater in strong terms, which he described as the very worst of "man traps" and the ruin of many boys. The inefficiency of the city police came in for their share, as also did the Moral Law, which was denounced as a delusion, and that the street obstruction clause was intended as a blow at the Salvation Army.

The convention then adjourned.

FIRE INQUEST.

Investigation to Ascertain the Cause of the Fire on Tuesday Night.

An inquest was held at 2 o'clock this afternoon to ascertain the origin of the fire at M. Powers' residence, Superior street, James Bay. Robert Ward, J. P., held the investigation and swore in the following jurymen: William Wilson, W. Shears, D. Spencer, M. Young, and W. McDowell. Mr. Spencer was chosen as foreman.

Mr. Ward said two requisitions were served on him to hold an inquiry and therefore it was necessary to visit the premises and hold an inquisition.

After visiting the house the jury returned to the Police Court room.

W. H. Dorman sworn—I am Assistant Inspector of Post Offices in British Columbia. On Tuesday night was told of a fire on Superior street; took a garden hose, an axe and a bucket to the house and knocked at the door; a man came around from the side of the house and said no one was in the house; I do not know the man; went under the house and played water on the fire; then went to a window and turned the hose on the fire; the Chief Engineer arrived and I turned the hose over to him; he was the first in the house and put the fire out; saw the remains of a fire in another room; saw a lot of sticks piled up in a cupboard in the room where the first originated; I could not swear to the man I saw around the building. I smelt coal oil around the place when I went around with the Chief Engineer; cannot say who the man was that I first saw on the premises.

Chief Engineer Deasy was the next witness. He testified, in brief, to the effect that when he reached the house Mr. Dorman was playing a garden hose on the fire. No one was in the house. After the fire was over the clock on the wall was found to have been recently wound up. It was then 11.25. In a stable at the rear of the house a trunk of linen, etc., was found which he was told had been placed there for safe-keeping.

Good for Robbie.

Robbie L. Reid, a young man well and favorably known in this vicinity, who taught at Clover Valley during the years 1886 87, and who has since been studying law at Dalhousie University, Halifax, where he completed his first year with marked success, heading his class in three subjects out of five, has left Halifax for the University of Michigan, Ann Arbor, Mich., where he will finish his course. We predict for Mr. Reid a brilliant career, both in his college course and his future life at the bar.—*Guardian.*

The Right Time.

Probably there is no period in life more important for the mental and moral training of youths than that between eight and seventeen years of age. If the spring-time of life is well employed, good results may be expected in after years. No better preparation can be afforded boys in this province than that which may be obtained at Corrig School, which is already largely patronized, and which a weekly increasing in number

The Roller Rink Safe.

City Inspector Leech inspected the roller rink this morning and gave the committee in charge some few instructions, which are being punctually and minutely carried out, so that no fear whatever may be entertained regarding the safety of the building for the great Moody services, commencing to-night at 8 o'clock.

R. E. Church.

On account of Mr. Moody's meetings this week the usual service will not be held Friday evening in the R. E. Church, as the members of the church choirs are expected to assist at these united services.

SOLICITUDE OF THE COLONIST.

TO THE EDITOR OF THE TIMES:

SIR,—The *Colonist* from time to time shows a deal of interest (?) in my welfare. The people of this city are aware that its solicitude for my reputation is entirely sincere and unselfish. I may say to the *Colonist* that I will be heard from in due time, and in a pointed manner.

JOHN GRANT.

THIS DAY'S NEWS.

Terrible Railway Accident in Pennsylvania—Heart-rendering Scenes.

Destructive Fires in Brooklyn—Loss of a Quarter Million—Street Car Strike.

Wilkesbarre, Oct. 11—An excursion train was wrecked last night on the Lehigh Valley road by which 120 people were killed. The accident occurred near Pennhaven. All the passengers in the rear cars were killed, the last two cars being telescoped. The passengers were either crushed to death or pressed against the boiler and burned to death. The scene beggars description. Passengers tell tales too horrible to believe. Several passengers on the rear platform who saw the train approaching at a high rate of speed, jumped and saved their lives. The engine plunged her full length into the crowded car driving the rear car through two-thirds its length, and the second into the third. As the steam and smoke cleared from the cars a ghastly sight was revealed. Timbers were crushed and wrenched in all sorts of shapes, while in every part hung mangled bodies, limbs, a few unmangled bodies burned and scalded by steam. Little remained in the cars resembling humanity. A few light tools on the train were called into requisition and the windows of the cars were smashed. Brave men entered and released those entangled in one car and found Jno. Lynch hanging from the roof by one leg, who after hours of work was released. A young lady was found caught by the legs, one being nearly severed. One leg was quickly released but the other could not be freed, and a blow of the axe severed it from the body. She saw the blow struck but never flinched. Taking her gold watch she handed it to her acquaintance as a gift to a friend at home. She was put on board the relief train and conversed cheerfully with friends, but suddenly gasped and fell back a corpse.

DESTRUCTIVE WASHOUTS.

St. Johns, N. B., Oct. 11.—Large bodies of men are repairing the washouts on the New Brunswick railway, and it is hoped to make connection with trains to-day. The damage is very great. Bridges have been carried away, mill property damaged, and timber lost. The river St. John at Fredericton is within a few inches of high spring freshets. Eight million feet of logs which had been jammed at Grand Falls, came down yesterday with a rush but is expected they will be caught at Fredericton.

PRICE OF BREAD INCREASING.

Montreal, Oct. 11—Bread has risen two cents since September and a further raise of four cents is to be made by the end of the week. The bakers claims they are now losing fifty cents on a barrel of flour. There is a great demand for brown bread in consequence.

FIRE AND EXPLOSION.

Brooklyn, N. Y., Oct. 11—This morning a fire occurred on the steamer Hofis lying at the Standard Oil Company's dock, north of Tenth street, and which was loaded with 46,000 barrels of oil. The flames extended to the shed on the pier, thence to the bark Ella Vose, loaded with 44,000 barrels of naptha and 500 cases of oil. All were completely destroyed and three firemen were injured by the explosion on the Hofis. The injured will die. Loss, $250,000.

RESULT OF THE FALL.

Quincy, Ills., Oct. 11—The latest results of the fall of the grand stand last night gives seventy-five severely injured. Many will die. Among them is the Hon. A. W. Wells member of the legislature.

THE STREET CAR STRIKERS.

Chicago, Oct. 11—The cars are being run under the charge of the police on Sedgwich street, Fairfield Avenue and State street lines. No attempt will be made to-day to start up any other branches. The strikers and sympathisers still hang around defiant, but the determined attitude of the police evidently scares them.

RIGHT KIND OF PREMIER.

Winnipeg, Oct. 10.—Greenway thinks 2,500 residents of Ontario can be induced to remove to Manitoba next year, and if possible he will address a series of meetings in that province during the coming winter.

MONTAGUE'S MAJORITY.

Ottawa, Oct. 10.—In the scrutiny of the ballots in the Haldimand election case, two votes were thrown out, reducing Montague's majority to 8.

THE CHINESE EXCLUSION BILL.

Washington, Oct. 11—The Senate today passed the House bill appropriating $50,000 to carry out the provisions of the Chinese Exclusion Act.

A TRIO OF ACCIDENTS.

St. John, N. B., Oct. 11—There were three fatalities in this vicinity yesterday. Thos. Wallace, a young man, while under the influence of liquor, laid down on the railway track and was found with his arms horribly mangled and other injuries which will cause death. George Golden, sixty years old, fell on a rotary saw in Jordan & Stetson's mill, and was almost cut in two, death being instantaneous. An eighteen year old boy named Irvine was drowned in Milford river.

THE READY PISTOL.

Kingston, Oct. 11—A lad named Whelan, of Clear Lake, was in company with a cousin aged 19 years, named Wilson. Whelan had a firearm, and apparently without malice said he would shoot Wilson. He pointed the weapon and fired, the ball entering Wilson's breast near the heart. Both went home and although Wilson was ill he did not tell what happened for some days. Towards the close of last week he sank rapidly and died. An inquest is being held.

FRONTENAC ELECTION.

The election in Frontenac is quietly progressing. No one doubts Smith will be elected.

ANOTHER RAILWAY ACCIDENT.

Massillon, Ohio, Oct. 11—A collision occurred this morning on the Cleveland, Lorraine and Wheeling road, near here, between an accomodation and a freight train; three passengers were seriously injured. The engineers and firemen jumped and escaped. Both engines and seven coal cars were wrecked. The cause of the accident was the engineer and conductor mistaking the new time table which came into effect on Monday. Loss, $10,000.

VANCOUVER NEWS.

A Budget of Information from the Terminal City.

From our own Correspondent.]

Vancouver, Oct. 9—A foot race of 75 yards, scratch start, for $250 a side, has been arranged between Harry Strew and George Irvine, to take place Friday next on the lacrosse grounds.

Samuel Thompson, an employee in the B. C. Planing Mills, had the misfortune to lose two of his fingers yesterday with a circular saw.

The young people of the First Presbyterian Church gave a farewell social to the Rev. R. Y. Thomson in the church, previous to his leaving the city to resume his position as lecturer in theology in Manitoba College, Winnipeg.

Harry Bonillon, who left here last Thursday for Seattle to run a two-mile foot race with Harry Brighouse, of New York, has come off victorious, beating the best American record for that distance. Another score for Vancouver.

The very obliging purser of the steamship Parthia, Mr. H. F. Raiff, is to be transferred to the steamship Batavia, much to the regret of Capt. Wallace and the other officers of the Parthia, to whom he has endeared himself by his genial disposition, gentlemanly conduct and strict attention to duty. Mr. Raiff will be succeeded by Mr. Elliott Bell, of Glasgow, who for a number of years has been purser on the Anchor steamships. Mr. R. will proceed to Hong Kong, where he will join his ship, either by the Duke of Westminster or on the Parthia.

The shipment of fresh salmon from B. C. to China promises to become an active industry. The experiment is due to Messrs. Lundberg and Becar, who sent a consignment of about 200 pounds to Hongkong by the Parthia on her last trip. Thirty days after her departure the salmon were served at Hongkong and were found to be as sweet and delicious as when first packed.

Last evening Mr. Geo. E. Munroe, the clever first officer of the steamship Premier, was united in the bonds of wedlock to Miss Kate Carroll, of Chicago, Ill. The ceremony was performed in the presence of a large number of friends in the Roman Catholic Church by the Rev. Father Fay. The bride was attended by her younger sister, Miss Annie Carroll, and Mr. Peter Barnhart, with his accustomed gallantry, discharged the duties of "best man." After the auspicious event the bridal party drove to the Dougall House, where a delicious supper was prepared. Mr. and Mrs. Munroe left yesterday for a bridal tour through Southern California, from which they expect to return in about a month.

One of Professor Norris' dogs exhibited his most striking resemblance to a human propensity by expressing a desire for spring chicken, to which he proceeded to help himself from the flock of one of our citizens. The citizen demanded 75 cents for his fine Leg-horn, but the Professor thought his dog entitled to the feast free gratis, and refused to pay. A little later a summons was issued and in order to settle the bill out of court, the Professor paid $4.

General and Lady Middleton spent part of Sunday in driving around the city and Stanley Park which greatly delighted them. On Monday morning, in response to an invitation from His Worship, Mayor Oppenheimer, the General and his lady took a trip on the Inlet and out to English Bay. The fine tug Vancouver had been chartered for the purpose by the City Council, and shortly after 11 a. m. a start was made from the City Wharf. Among the party were Mayor and Mrs. Oppenheimer, Mr. and Mrs. Abbott, Mrs. I. and Miss Sadie Oppenheimer, Aldermen Humphries, Alexander, Brighouse, McConnell, Hammersley, and Capt. Worsnop. The tug looked magnificent beneath the broad pennants that floated above and around her. Out through the narrows they boldly steered and soon reached Point Atkinson lighthouse. Thence they steered for Point Gray, and after coasting about for some little time they again headed for the harbor, and were soon clearing the waters on their way to the north arm of the inlet. Unfortunately when a little above Hastings a shower of rain began to fall, so they decided to return. A splendid luncheon was served on board, after which they called at Moodyville and were courteously received by Mr. Springer, who showed them through that large mill. About 4 o'clock they returned to the city, when General Middleton expressed his thanks to Mayor Oppenheimer for the pleasure the trip had afforded him. The General seemed greatly impressed with the appearance of Vancouver as the chief point on the Imperial Highway to India, and the necessity for its fortification. The General and his party left for the east yesterday.

HEAVY DAMAGES AGAINST THE CITY.

TO THE EDITOR OF THE TIMES:

SIR,—Heavy damages against the city will be the result if the Council will not repair the broken planks in the sidewalk in the H. B. C. alley, commonly called the extension of Chatham street, east of Cook street. And while I am on my legs, as a certain individual used to say, I have to call the Council's attention to the urgent necessity of completing the sidewalk on Fernwood road. It passed the Council many months ago, and is not completed yet, and the 30 to 40 school children have to walk through the mud in consequence. In hopes it will soon be attended to I will say no more this time; but if not attended to soon you will hear more, not only from one, but 30 or 40 house-holders and residents of Spring Ridge. W.A.B.

PROSECUTION OR PERSECUTION?

"Those who have already settled in Comox have appealed in vain to the Gov. to have roads extended throughout the settlement. Yet it is worthy to note that Mr. Dunsmuir has roads made to his mine, his stores and his railway station by the Government of which he is the head—for is he not President of the Council and carries the Government in his breeches pocket? No one will object to a reasonable expenditure being made for the construction of roads to the mining centers though at the same time it is well to remember that these mines are private property, the public are not allowed to trade there."

The Colonist of this morning supplies us with information in respect to the alleged libel upon Mr. Dunsmuir, which appeared in The Times of the 9th inst. The sentences, which we place at the head of this article, appeared in an editorial on immigration, which dealt with the necessity of peopling the unoccupied lands of the Province, and at the same time pointed to some of the causes that militated against settlement in the splendid agricultural district of Comox. In discussing the question, our contemporary displays more than its customary virulence; and although we would not deny to it the privilege of gloating over the fact that the President of the Council had instituted an action for libel against this journal — instituted for reasons which will be variously interpreted —we protest against a prejudgment of the case by the Government press of the city. Partyism does not require that our contemporaries should make this a personal matter, or that the press itself should become the advocates of a curtailment of its own liberties. It is uncharitable and unprofessional, if not a contempt of court, to publish a one-sided and highly-colored statement—such as appeared in this morning's Colonist—immediately after proceedings have been entered.

Of the alleged libel we desire to say, whatever meaning may be placed upon the sentences by others, it was not our intention to convey the impression that Mr. Dunsmuir built roads to his mines with Government money, or, as the Colonist puts it, that he "diverted money which ought to be used in the public service to his own private purposes." This is a scandalous perversion of our language—an unjustifiable distortion of its meaning. We do not believe that Mr. Dunsmuir would be guilty of any act that could, by his bitterest opponents, be construed into personal malfeasance, or misdirection of public moneys. We never for a moment entertained such an opinion, and if the language of our article, as quoted above, is susceptible in the slightest degree of such an interpretation, we unequivocally withdraw it.

We have had occasion frequently in the past to refer to Mr. Dunsmuir's acts as a public man, and may have opportunities to discuss them with the same freedom and fullness in the future. We have never attacked him privately or upon trivial grounds. His position as President of the Council in a Government to which we are for public reasons opposed; the stand he has taken as a politician on many questions of vast importance to the province; his crushing monopolies in lands and minerals, and the tendency of the legislation of the government, of which he is a member, to foster and perpetuate the centralization of power, wealth and political influence in the hands of one man—are some of the reasons for our opposition. Mr. Dunsmuir, as dealt with in the Times, is not a private individual—he is a politician, and the most influential member of the Government. That Government we believe to be a bad Government, composed of incompetent men. As a public and political journal, it becomes our duty to discuss their public acts, and no harrassing libel suit or intimidating threat of loss of patronage, will deter us from prosecuting the course we believe to be the right one. In this particular instance we have stated, as fairly as possible, and at the first opportunity, that the meaning attributed to our remarks, was not the meaning we sought to convey and further, we believe, was not the meaning conveyed.

DOMINION INGRATITUDE.

The public meeting, to be called by the Acting City Clerk on a resolution of the Council, for Saturday next, should be attended by every individual having the interest of the City of Victoria at heart. There has been an unaccountable apathy hitherto in the resistance of attempts by members of the Federal Government to decry, belittle and deprive the city of the advantages of Dominion offices. A few weeks ago the Hon. Mackenzie Bowell, in order to find a way out of a political exigency, had the audacity to tell the Board of Trade that the only thing to be done was to abolish an office here and remove it to Vancouver. At the time we drew attention to the insult and the injury to Victoria. We called upon the City Council to issue a protest, but to no effect. The inadequate accommodation provided for the Battery has also been pointed out. The neglect of the Militia Department has been commented on. The Dominion Cabinet, emboldened by their first efforts, have not hesitated to drive the wedge home. They are aided and abetted in their proceedings by members of the Provincial Government, to wit the Hon. John Robson, and other traitors to the interests of Victoria. Victoria and its neighborhood has been selected by the Imperial authorities as the proper place for the erection of defensive works. The C Battery were sent here expressly for the purpose of forming a garrison for the same, if we are to believe the utterances and assurances of the Minister of Militia. Victoria has its claim on the patronage of the Dominion, for does not her customs return to the exchequer equal to all that is collected in the province from that source of revenue. We have asked for justice and they give us ethics; we ask for bread and they give us a stone. Let the citizens arouse to a sense of their position, and by one united voice tell the Ottawa Ministers that they will not be permitted to filch away our just rights with impunity. Saturday's meeting should administer a lesson to them that they will not easily forget.

OUR CHINESE CIVIL SERVANTS.

In these days when the Chinese question is being so much discussed it is worth while enquiring into the attitude of our own Dominion Government towards the Mongolian. The Times is informed on reliable authority that Chinese are regularly employed in connection with some of the Dominion departments in this city. A Chinaman, for instance, does service as cook on the revenue cutter Sir James Douglas, and "makee velly good hashee" for Her Majesty's gentlemanly officers and crew employed on board of her. When the steamer brought down a load of coal from Nanaimo the other day for the use of the Dominion Government officers, Chinese laborers, it is said, were employed to carry it ashore and house it. It is also stated that when the lighthouses are visited with supplies by the steamer, that the Chinese corps of civil servants accompany her, to do the work of lightering, etc If this is true, and we believe it is, the matter certainly demands rectifying It is not only inconsistent with the professions of the Government, as favoring Chinese restriction, but it is unfair and unjust to the white laborers of the city, who could always be obtained to do the work. We might say more, that it appears like a good deal of "cheek" on the part of the Dominion Government, which by the way they are not slow in showing these days, to employ Chinese in this Province, where they are debarred from provincial and municipal works, and where the people are so unanimously opposed to them where they can be done without.

MR. WIMAN.

Apart altogether from the question of Commercial Union, the attack of the Toronto Empire upon Mr. Wiman appears scarcely justified. In fairness to him, it should be said that in an interview in the New York Sun he took distinct ground against the proposal for a political union while advocating, as he has been doing for a year past, a commercial union. "I believe," he said, "that those persons on both sides of the border who think that Canada is prepared for annexation are most grievously mistaken," and "if a vote were polled to-day in the country districts there would be a majority of ten to one against it." Further on he said, "There is no sentiment so generally pronounced to-day in the Dominion as that of allegiance to Great Britain and the desire for the preservation of the political autonomy of Canada." In a recent letter he states that "men who have been born in Canada, who have grown up in the atmosphere of loyalty to the British Crown, and who know the hearts that beat responsive to the strains of 'God Save the Queen,' are not changed in the twinkling of an eye, to what they consider renegades, by the invitation of this great country or by the temptation to be rid of their national debt, which you propose to assume." Surely this does not read like the language of "a renegade and a traitor," as Mr. Wiman is so freely denounced as being. The fact is that he is still a staunch Canadian and has steadily declined to forswear his allegiance to the British Crown.

SATURDAY HALF-HOLIDAY.

We have for some time been advocating the Saturday half holiday, as a well deserved boon to our hard-working mechanics and laborers, and as such would greatly advance the due and proper observance of the Sabbath, we would suggest that a meeting of the workingmen and their friends in support of the proposal, should be convened to consider the same, inviting the employers so that the different phases of the question may be fully discussed. Several employers and trades have taken initial steps in this direction, which only requires a united effort to make the Saturday half-holiday universal throughout the city. The pulpit should also lend its powerful aid to bring about the consummation of so desirable an end.

ALDERMANIC BOARD.

Regular Meeting—A Liberal Donation—"C" Battery Removal, &c.

The regular weekly meeting was held last night. Present: His Worship Mayor Grant, Aldermen Vigelius, Styles Coughlan, Wilson, Powell, Penwill and Kelly.

Minutes of the previous meetings read and adopted.

COMMUNICATIONS.

From W. Williams, requesting permission to lay a new drain on Yates street adjoining Deluge engine house. Request granted under the supervision of the Street Committee.

From Davie & Pooley, asking the Council to pay the claim of a man named Phœnix for damages incurred by having patients on his premises suffering from an infectious disease. Referred to the City Barrister.

From C. W. R. Thomson, calling attention to the city sewer which is running through the property of the Gas Company on Pembroke street. The sewerage was running away at Finlayson's bridge, but was turned on the property of the Gas Company. Referred to Street Committee.

From W. S. Gore, Surveyor-General, requesting the Council to construct a sewer on Fort street near the public school. Referred to Street Committee.

From H. S. Mason stating that he received from T. D. Galpin a letter offering the City Library $500 worth of books.

Ald. Styles moved that the communication be received and the thanks of the Council be tendered Mr. Galpin for his most liberal gift. Seconded by Ald. Vigelius.

His Worship said it was not often that a gentleman could be found who would give such a nice present to the city of Victoria as a present of $500 worth of books.

Mr. Styles said it was not every day that such liberality was exhibited.

The motion was amended to read that a Committee consisting of His Worship, Ald. Harris, Styles and Powell be appointed to tender a vote of thanks to Mr. Galpin through his agent, Mr. H. S. Mason, and select the books from a catalogue accompanying the offer.

The motion as amended was carried unanimously.

From twelve ratepayers calling attention to an offensive drain on Fort street, near Quadra street. Referred to Street Committee.

Ald. Coughlan said he would like to call the attention of the Council to another bad drain on Douglas street, near Pemberton street.

REPORTS.

From the Drainage Committee reporting that in view of the approaching wet season it would be advisable to defer the construction of the sewer until next year.

His Worship said he agreed with the report, but was informed to-day that the parties moving for the injunction intended to immediately carry the matter before the courts. It is certainly objectionable to have the sewerage carried through the ravine during the summer, but it could do little harm during the winter. The report was adopted.

A report from the Street Committee recommending the construction of a sidewalk on First street was read. Report adopted.

Ald. Wilson moved that the Public Morals by-law be reconsidered. Seconded by Ald. Penwill and carried. The by-law was laid over for one week for the purpose of giving Ald. Wilson an opportunity of introducing a few amendments.

His Worship said a number of clerical gentlemen called at his office to procure a police officer at the rink during Mr. Moody's evangelical meeting at the skating rink. The gentlemen also asked for the use of a couple of electric lamps during the meeting. Granted.

Ald. Vigelius moved that the Building Inspector be instructed to inspect the skating rink. A large number of persons would be present at Mr. Moody's meetings and their safety should be attended to by examining the foundations. Carried.

Ald. Coughlan said that it was stated to-day that it was intended to remove C Battery from this city. The Council should take some action on the question, as the report created a strong feeling in this city and he would move that a public meeting be called for Saturday evening next to protest against the removal of C Battery. Seconded by Ald. Powell.

His Worship said he considered it a most unwarrantable proceeding on the part of the Dominion Government. Sir Adolphe Caron promised to leave the Battery in this city and the people would enter a most earnest protest. His Worship said the people of the mainland were entitled to protection and he would be pleased to see a battery stationed at Vancouver. This city was the capital of the province and would not allow the removal of the battery for which they waited for several years. He said the Dominion Government might station B Battery at Vancouver; the removal of the Battery at present in our midst would be an outrage which would not be tolerated.

NOTICE OF MOTION.

Ald. Wilson gave notice of a motion to reorganize the police force and that Superintendent Bloomfield be given one month's notice that his services will be no longer required.

The British Columbia Directory.

A new directory is now being compiled for the province of British Columbia. It will contain full descriptions and reliable information of the various places, besides an accurate list of the residents, &c., a personal canvass having been made by Thomas Draper. Owing to the large increase in the province, the volume will be at least double the thickness of previous years. R. T. Williams, Publisher, 28 Broad street.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria.

THE ROAD SCULLER.

A Machine That Beats the Bicycle for Developing the Muscles.

"It's like rowing yourself on land."

So said Wallace Ross, the oarsman, in explaining the operation of the road sculler, or land rowing tricycle. This machine is one of the most unique affairs for propelling oneself along over the ground ever invented.

It rests on three wheels, like a tricycle, but it is propelled, in so far as the muscular exertion is concerned, like a boat, only the rider faces forward. An expert rider can row himself a mile in 2:30 on a good, hard road. A pleasure rider may do ten or twelve miles an hour in ordinary travel with comparative ease, and an expert can go twenty miles an hour if he likes. The road-sculler will beat a bicycle all to pieces going up a hill, and will travel fast enough for any one's pleasure on an ordinary road. You can carry your gripsack on it, and, in fact, can transport quite a bulky lot of belongings if you like.

The exercise one gets in using it is the same as in rowing. It benefits nearly every muscle in the body, and in this respect it excels the bicycle, or its more stable cousin, the tricycle.

The machine consists of a light iron frame, the rear end of which rests upon an axle, which is bent so that the line of support is below the centres of the wheels. The forward end terminates in a fork, in which the single forward wheel plays. This part is not unlike the arrangement of the forward wheel of a bicycle, only on a much smaller scale. The two main wheels are forty inches in diameter, and the forward one, which is the steering wheel, is twenty inches.

The rear half of the frame supports a Davis sliding seat, exactly the thing which all scullers now use. Close to the forward end are the foot rests, in which the rider places his feet, just as a sculler does in his boat. These foot-rests serve another purpose, as by them the rider steers the machine. Two little levers reach from the toes of the foot-rests to the fork which encloses the forward wheel and by pressing forward either foot the rider turns the steering-wheel to the right or left as he may desire.

But the propelling part of the machine is its most unique feature. At either end of the frame of the machine are two small grooved pulleys, one on each side, and on the main axel, just inside each wheel, is a larger grooved pulley, 12 to 15 inches in diameter. These larger pulleys revolve on the axle independent of the wheels in one direction, backward. But when they turn forward they turn the main wheels with them. In fact, they are "friction clutches." When they turn forward they grip the wheels and turn them. When they turn backward they release the wheels, and do not interfere in the slightest degree with their forward motion.

A little wire cable an eighth of an inch in diameter starts from a handle just at the sculler's hand as he leans forward, passes over the small pulley on the forward end of the machine, and then back and twice around the large pulley or friction clutch on the main axle. Then it passes under the little pulley at the rear and over it, forward to the handle at the sculler's hand. In point of fact, this cable is cut in two at the friction clutch, and the two ends are fastened in two little slots on the edge of the pulley so that the cable cannot slip on it. On the other side of the machine is another cable arranged in like manner.

To propel the machine the sculler takes his place just as he would in a scull and pushes the handles well forward. Of course, the seat slides forward with the motion of the sculler's body. Then grasping the handles he pulls a stroke. As he draws the handles back the cables are wound forward from the friction clutches, while corresponding portions are wound on from the rear. This gives the friction clutches two or three turns forward and with them turn the wheels. Then, as the sculler pushes the handles forward, the motion of the crutches or pulley is reversed, but the main wheels continue to turn forward and to carry the machine along. In fact, the machine works so easily and the momentum is such that when it is fairly going one stroke will turn the wheels many times and will carry the machine along sixty feet or more.

Then the progress is, as Wallace Ross said, just like rowing. The machine will turn around almost in its own length. A brake conveniently within reach will stop it in a very short distance.

TELEGRAPHIC NEWS.

Cable and American Dispatches—Interesting Items.

London, Oct. 10—The First Lord of the Treasury's speech at Gloucester has greatly gratified Canadian circles, as it is calculated to prove to the United States how unitedly Canada and Great Britain stand together. Mr. Smith's reference to the magnificent moderation and judgement on the part of Canada in the present crisis, entitling her to the admiration of the world, is only the echo of the general British feeling where the dispute is understood.

DR. MACKENZIE'S BOOK.

London, Oct. 10—Dr. Mackenzie's book will be placed on sale Monday next. Already the demand for it is very great, foreign dealers have sent in large orders in addition to those coming from Germany.

TURKEY PROTESTS.

Rustem Pasha, Turkish Ambassador to London, held a protracted interview with Lord Salisbury to-day, and strongly protested against the growing impudence of Bulgaria and the agitation against Turkish authority in Macedonia, both of which he ascribed to the fact that Turkey was tampered in her legitimate action to her vassal states by the present attitude of the Powers, and particularly of England. It is understood also that he attempted to re-open the Soudan question, but failed to induce the Premier to assent to its renewal.

PLOT TO KILL.

Munich, Oct. 10—The *Neueste Nachrichten* confirms the story published a few days ago that Wurtenberg and Swiss anarchists contemplated an attempt to assassinate the German Emperor while making his journey from Munich to Vienna. The greatest precautions were taken after the discovery of the plot, and His Majesty's proposed route was almost entirely changed in consequence.

COLLECTING EVIDENCE.

Dublin, Oct. 10—*Freeman's Journal* says the *London Times* has subpoenaed Mr. Tim Harrington, M. P., Secretary of the National League, to produce the minute, cash, banking, letter and cheque books, and ledgers of the National and Ladies' Leagues, and of the Labor and Industrial Union, covering the period between 1879 and 1888. The paper says that the *Times* will also subpoena Parnell, McCarthy, Biggar, Campbell, Nolan, Sexton, Cox, Quinn, Kenny and S. P. O'Connor.

THE OUTLOOK FOR TURKEY.

Vienna, Oct. 10—Sadullah Pasha, Turkish Ambassador here, has informed the Porte that he does not fear the political result of the meeting of the Emperors, which, he says, will tend to maintain the peace and existing situation; but whatever may occur in Bulgaria, European Turkey will not be disturbed.

Children Cry for Pitcher's Castoria.

CITY AND PROVINCE.

—A lady writes: "I was enabled to remove the corns, root and branch, by the use of Holloway's Corn Cure." Others who have tried it have the same experience.

—Worms derange the whole system. Mother Graves' Worm exterminator deranges worms, and gives rest to the sufferer. It only costs twenty-five cents to try it and be convinced.

—What Toronto's well known Good Samaritan says: "I have been troubled with Dyspepsia and Liver Complaint for over 20 years, and I have tried many remedies, but never found an article that has done me as much good as Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure."—CLARA E. PORTER.

—All beds seem hard to the rheumatic. Then harken ye peevish sufferers! Apply *Dr. Thomas' Eclectric Oil* to your aching joints and muscles. Rely on it that you will experience speedy relief. Such, at least, is the testimony of those who have used it. The remedy is likewise successfully resorted to for throat and lung diseases, sprains, bruises, etc.

—Faces as yellow as that of the "Heathen Chinee," in consequence of bile in the blood, grow fair and wholesome-looking again when Northrop & Lyman's Vegetable Discovery and great blood purifier is used to relax constipated bowels and expel the bilious poison from the circulation. Rheumatic and blood impurities are also driven out by it, digestion restored, and the system benefited in every way by its use.

—Gilbert Laird, St. Margaret's Hope, Orkney, Scotland, writes:—"I am requested by several friends to order another parcel of *Dr. Thomas' Eclectric Oil*. The last lot I got from you having been tested in several cases of Rheumatism, has given relief when doctors' medicines have failed to have any effect. The excellent qualities of this medicine should be made known, that the millions of sufferers throughout the world may benefit by its providential discovery."

An Explanation.

What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember a few years ago the word Malaria was comparatively unknown—to-day it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and Malaria are intended to cover what our grandfathers called Biliousness, and all are caused by troubles that arise from a diseased condition of the Liver which in performing its functions finding it cannot dispose of the bile through the ordinary channel is compelled to pass it off through the system, causing nervous troubles, Malaria, Bilious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvelous.

TO THE PUBLIC.

We have this day disposed of the Stock and Good-will of our business to Mr. Robt. Jamieson. Thanking the public for the generous patronage extended us in the past, we solicit the same to our successor.

Parties in debted to us will find Mr. Ferguson at the office of Mr. Jamieson until the 17th inst.

FERGUSON & CO.,

As will be seen by the above I have purchased the entire Stock and Good-will of the Book and Stationery business of Ferguson & Co., and am actively engaged in removing the stock in my old stand to the more spacious premises lately occupied by that firm, next door to the Post Office.

With the two Stocks combined, and goods en route, I shall have the largest and most complete stock in this line in the Province, and confidently ask for a continuance of the patronage so liberally accorded to me in the old store and to my predecessors in this.

R. JAMIESON,

Bookseller and Stationer,

Next door to the Post Office. s11tf

SECURE STRONG, HARD TEETH FOR BABY.

NOT FOR SUMMER ONLY BUT FOR THE YEARS TO COME.

Not only in the hot summer months is Nestle's Milk Food pronounced by medical men as the safest diet to prevent cholera infantum, but its history of 20 years' use in every quarter of the globe demonstrates that children fed on Nestle's Milk Food are noted for firm flesh and muscle, and also for strong, hard teeth; this last quality is deserving of note in this country.

Nestle's Food has attained its present enormous consumption through the influence of the medical profession. Sample and pamphlet sent on application to

Items Telling of the Movements of Well Known Persons.

A J McLellan has gone to the Mainland.

W H DeWolf, of the B C Smelting Co, is at the Clarence.

John Boultbee, barrister, of Vancouver, is at the Oriental.

J D Carscaden, of Carscaden & Peck, Winnipeg and Montreal, is in the city and will remain few days.

Frank Stephen, Montreal, brother of Sir George Stephen, arrived in the city last night and is stopping at the Driard.

J Macartney arrived from Revelstoke last night, and will hereafter be connected with the Victoria Truck & Dray Company.

Alex. Begg, of Crofter fame, returned to the city last night to further negotiate with the Government on the question. He believes the scheme will ultimately succeed.

B. Rosamond, of the Rosamond Woollen Company, Almonte, Ontario, and his brother, Wm. Rosamond, also a woollen manufacturer of Cobourg, Ont., are at the Driard. They travelled across in a private car with Frank Stephen.

Senator McDonald, of P. E. Island, on the 8th of this month completed his 50th year in public life. The fine old Senator has a record of which himself and his children may well be proud. During a half century of political battles he was never defeated at the polls, nor never missed a parliamentary session. He is 81 years of age and is still hale and hearty.

Mr F B McNamee, the widely-known contractor, and Mrs McNamee have just returned to Montreal after being absent in Great Britain and the Continent about three months. Mr McNamee visited the three kingdoms and was also seventeen days in Paris and other parts of France. While delighted with all they saw abroad, they are convinced that Canada is the finest country in the world for the poor as well as the rich.

POLICE COURT.

(Before City Police Magistrate Richards, Q. C)

Geo. Beckingham was charged with firing off a gun within the city limits.

Defendant said he shot the cat belonging to a neighbor because the animal was killing his pigeons. Fined $5 and costs.

Peter, a Cowichan Indian, on remand from the 10th inst., charged with assaulting a Chinaman named Fook Wong. Discharged.

R. Copeland, charged with stealing $10 from James McPhadden. Defendant did not appear; a warrant was issued. Officer Walker stated that he served a summons on the defendant.

New Goods.

We have just received the largest and finest lot of Electro-plated ware and solid silver jewelry, we ever imported.

LANGE & Co. *

An Invitation

Is extended to all our customers to call and inspect our latest fall importation of woolens from European markets. Having secured at great expense the services of Mr. Wm. Sheeir, late of Boston, Mass., a competent mechanic, to act as foreman for us we are now prepared to turn out work second to none on the North Pacific Coast. A. GANO & SON, Artist Tailors, 42 Yates street. *2w

Adulterated Food.

The adulteration of food report has been issued by the Department of Inland Revenue at Ottawa. Samples to the number of 902 were analyzed and twenty-five per cent. found to be doubtful. The greatest amount of adulteration seems to have been practiced in milk and baking powder. Eighty-six were examined in Winnipeg and fifteen found impure.

Harrison Hot Springs.

Arrivals at St. Alice Hotel last week: Newton H Chittenden, San Francisco; Mrs D Gowan, Vancouver; E W Lamb, Westminster; A Bossi, R J Johnson, Victoria; G Walker, Mrs Walker, Calgary; T G Palmer and wife and two Miss Palmer's, Boston; J Warren Beal, C H Dotleck, Max Mowat, L A Lewis, H Hoy, Mrs Hoy and child, Miss Nellie Bowron, Westminster; Saml H Horne, Vancouver; Mrs J Armstrong, Miss McKeaver, Chilliwhack; J J Hunt, J Behrman, J Silverbaum, T Dochelli, R Hunter, Captain J Edwards, Geo Gerish, Mr and Mrs Dumbleton, Port Townsend; R J Etheridge, G Etheridge, Victoria.

New Autumn Dress Fabrics.

A complete line in single and double width goods just received at the City House.

Assay of Quartz.

An assay of samples of quartz taken from the Anderson Lake mine, discovered this season, was received to-day and are very satisfactory.

The Cariboo Election.

The writ for the election at Cariboo has been despatched to Mr. Stevenson, the returning officer, at Quesnelle, who will fix the date on which it will be held.

Queen City Band.

On account of a disagreement with the proprietor of the Club Theatre, the Queen City band will not play at that place. The members are discussing the question of renting the roller rink during the winter.

Good Coal Struck.

The workmen of the Vancouver Coal Company, engaged in sinking a shaft in the vicinity of the former Harewood Mine, have struck an excellent seam of superior coal. The depth of the shaft is not quite 100 feet.

Social Events.

His Honor Lieut.-Governor Nelson entertained a number of guests at dinner last evening.

Mr. and Mrs. R. P. Rithet will hold a ball to-morrow evening. A large number of invitations have been issued.

Wedding.

The marriage of T. L. Davis and Miss Kate O'Brien will take place this evening at the residence of Bishop Lemmens. Mr. Davis is well known in this city, and the bride has a host of friends. THE TIMES extends congratulations in advance of the happy event.

Ronisch Pianos.

We have a consignment of these renowned great pianos on the way of new designs and request intending buyers to wait and examine them before buying. Ronisch pianos have now been ten years in use in B. C. and give universal satisfaction. C. A. LOMBARD. *

A Noxious Weed.

Our attention was drawn to an impromptu growth of a noxious weed on the Esplanade, which was thought to be the dreaded "Bathurst Burr" of Australia. At our request a gentleman from Lasqueti Island, now engaged in sheep raising there, but previously in Australia, examined the "burr" and he says it is almost certain destruction to the wool of sheep. The weed has no doubt been brought in the ballast of the ships, and our City Aldermen should see that it is destroyed before it gains too strong headway. In time wool will be valuable in this province, and it is well that no deleterious weeds should be allowed to flourish, to end in the destruction of the wool industry.

Deep Sea Fisheries.

A meeting of many of the influential citizens of Vancouver, says the *News*, was held last evening in the Hotel Vancouver to discuss the question of the deep sea fisheries of British Columbia. Mr. E. V. Bodwell occupied the chair and Mr. E. E. Rand acted as Secretary of the meeting. A great deal of information was given on the subject by Capt. Mellon and the deep sea fisheries of this province were fully described by Capt. John Irving, of Victoria. Mr. Charles Innes, of Inverness, Scotland, who was present, gave his hearers many interesting facts respecting the condition of the crofters in Scotland. After a very full discussion, it was moved by Capt. Irving and seconded by Mr. Ceperley that a committee of three containing of Messrs. Bodwell, Mellon and Clute be appointed to urge upon the City Council of Vancouver the importance of conferring with the Dominion Government in respect to the exploration of the deep sea fisheries of British Columbia and the establishment of fishing stations.

Yan Phon Lee.

Yan Phon Lee, the Chinese Yale College graduate, who obtained some distinction in the east by a series of articles in the magazines and reviews, in which he undertook to defend his race, and argued in favor of Chinese immigration, has determined to make his permanent home in San Francisco. Unlike most of his countrymen his history has been an eventful one. He disclaims any connection with the coolie class, having in his veins blue blood that can be traced back for hundreds of years. Having discarded the distinctive characteristics of ordinary Chinese, Yan Phon Lee looks more like a Japanese than a native of the Celestial Empire. Through the kind offices of eastern friends he has been appointed to a position in the Pacific Bank, where Mr. McDonald has made him a clerk and interpreter, and has confided to him the management of all the Chinese business of the corporation. His white wife and infant child have not yet arrived in that city, but are expected shortly. Upon their arrival they will be given a dinner at the Chinese consulate.

Evangelistic Crusade.

Mr. Moody, the celebrated Evangelist, will commence the series of meetings in the Skating Rink this evening, under the auspicies of the Y. M. C. A. Every preparation has been made for the comfort and convenience of the large concourse, which will no doubt be present to hear the evangelist on this, his first appearance in Victoria. Prof. Sharpe requests all musical people wishing to assist in the choir at these services to be at the Skating Rink at 7 o'clock this evening, or as soon after as convenient, so that a rehearsal can be held prior to the meeting. If you have Sankey and Moody's Gospel Hymns please bring your own copy, as they may be rather short of them, on account of the largeness of the choir.

The following telegram was received as we go to press:

SEATTLE, Oct. 11, 1888.

To Dr. Reid:—D. L. Moody on board Olympian; will arrive Victoria early this evening. H. E. CROASDAILE.

The main entrance to the rink will be on View street. Please do not forget. There will be collections after the services to defray expenses.

Children Cry for Pitcher's Castoria.

OUR TOWN MAJOR.

At the Victoria—List of Conspirators—The Library, Etc.

So THE TIMES has been sued for $5000, and the hyena on Government street grins and the old man upstairs on the back street nods his hoary head and rejoices in the attack upon a fellow laborer. Victoria Christianity, score one.

Were you at the Victoria last night? Of course you were; if you weren't, then you should have been. Everyone was there. We had lawyers, doctors, soldiers, sailors, tinkers, tailors and all the rest. Ye gods were in great form, and, notwithstanding being told by the *Colonist* man that they were "not intelligent," showed their intelligence and perception in applauding the piece throughout. They shewed their perception most when they accorded their unbounded applause to the Major. Thank you, gentlemen. You know the Major advocates the rights of the workingman, and you know his endeavors to bring about reforms for the good of all, and he's glad you appreciate him so much.

How jealous they will be, especially the "Ex-Councillor." See how popular favor goes, old boy. The Major may yet oppose you for Mayor or Senator from Esquimault. So you'd better look out for your laurels. Even the inimitable Teddy Gamble, of the Juveniles in his list of the "conspirators" placed the Major's name above the "Ex-Councillor's." The Major was delighted to be included in the list along with the charming fascinating "Dude." But "Ex-Councillor"—well, it gave the thing a semblance of the rogues' gallery in the eyes of strangers.

What has become of the public library. We seem to have lost track of it altogether. The money has been voted long ago, and yet no library. Things do move slowly. Where will the City Council place the munificent donation of Mr. Galpin. Here is an example for our millionaires.

"They allowed Minister Bowell to remove a Dominion office over to Vancouver. I hear that a telegram came late last evening that the handsome Sir Adolphe was going to remove the Battery from Victoria. It may not be true, but I shouldn't wonder. Have not our representatives permitted the Dominion Government to treat this city with impunity, neglect and outrage every sense of common fair play? What care they? One has a crow of his own to pluck. Your Senator wants the "bawbees," and they all look after No. 1, and neglect the interest of the city."

If, when Mr. Moody comes, he can only reform the *Colonist* he will perform a feat in the field of reformation which will be the crowning effort of a brilliant career. Let us pray that he may succeed for the sake of the good name of the fair city of Victoria.

Victoria ought to be blessed. Mr. Moody, the Salvation Army, the W. C. T. U., the Y. M. C. A., the moralist on Government street, the reformed City Council, and THE TOWN MAJOR.

HANDSOME DONATION.

T. D. Galpin Will Present Books to the City Valued at $500.

The following letter was read at the City Council meeting last evening:

To His Worship, the Mayor and Aldermen of the City of Victoria.

GENTLEMEN. I have received a letter from Mr. Thomas Galpin, of London, England, a large property holder of Victoria, saying that, noting that the Library By-law has been passed, to ensure the permanent establishment of a library in Victoria, he has sent me a catalogue of Cassels & Co.'s publications, and requesting me to communicate to the Library Committee his desire to present one hundred pounds' (£100) worth of books, reckoned at retail price, free of charge to the library; and if the Committee desire to accept his offer he will be glad if they will choose from the catalogues the books they would prefer to select. Yours, etc.,

HENRY S. MASON.

Victoria, 10 Oct., 1888.

Mr. Galpin is the owner of Galpin's block on Government street, near Fort street, and other valuable property in Victoria. The liberal gift was accepted by the Council and received much favorable comment at the meeting of the Board of Aldermen held last night. We have a few more gentlemen in this city whose purse strings might be loosened by a donation of a similar description. The object is a worthy one and the liberality of Mr. Galpin will be appreciated by the residents of this city.

Juvenile Opera Company.

The above company came here with a good reputation and last night's performance has established it with Victoria audiences. Olivette, the ever popular opera, so full of light and sparkling music, drew together a large audience, which was enthusiastic throughout and was not sparing in its applause. Camille Cleveland, as "Olivette," was a decided success, her singing and acting being perfection. Emma Berg's "Countess" could not be improved upon. She has a deliciously sweet soprano voice, singing with the greatest ease, her high notes clear and ringing. "Captain De Merrimac" as represented by Harry Wise, was exceedingly good. The "Coquelecot" of Teddy Gamble kept the audience in amusement throughout the evening. His "Bob-up Serenely" made a decided hit, but would have been just as well had one verse been omitted, although it was seemingly relished by the audience. Valentine, by Evan Gamble, was fairly well done, at times very good. His singing was not up the mark. Duo Dos Ifs, by Julia Martin, was well done; what little singing she had to do was very nicely rendered. The principals were well supported by chorus during the evening. The duet between the Countess and Olivette was a magnificent effort, and received a well-merited encore. Their beautiful and clear well trained voices sending melody throughout the theatre. The chorus at the end of the second act deserves special mention; it was simply grand and received a vociferous encore. Altogether the performance was a clever one and a decided success. All the voices are well trained, the choruses are sung splendidly. Everybody should try and hear this very fine company in such operas as Mikado, Pinafore and Chimes of Normandy. The Juveniles are exceptionally good and away ahead of many adult companies at present on the road. Teddy Gamble and Sullivan are to be congratulated on having got together such a fine company. The whole credit is due to Mr. Eckerty whose untiring efforts has been crowned with success. The "Chimes of Normandy" will be given to-night, and a large audience will probably witness this favorite opera.

A Success.

The French Hotel, under the management of the well known epicure, Mr. Escalet, is meeting with excellent success. All speak in glowing terms of the cuisine. The place to get the best dinner in town. Meals at all hours during the day. *

Fruit Jars and Jellies.

Mason's Porcelain Lined Cap and Mason's Improved Gem Jars, in pints, quarts and half gallons; also Tin and Glass Top Jellies, all sizes, at lowest prices, at John Weiler's, Fort street. *

HOTEL ROBBERS.

Shea and Martin Captured—Strong Evidence of Their Guilt.

A man named Shea was arrested in Tacoma on Saturday last by Chief of Police Woolery. He is 25 or 26 years of age, five feet eight inches tall, slight in build and of rather dudish appearance. His face is very pale and his hair is quite black and combed down over his forehead in bangs. His hands are white and soft and his fingers extremely long and pointed. He is said to be an abandoned and decidedly slippery criminal. His accomplice, Charles Martin, was arrested in Portland. On his person was found two pair of nippers which are models of perfection, a bunch of skeleton keys and several watches, considerable other jewelry and miscellaneous spoils. He refused to make any statement further than that he is in a tight place. He is apparently about 35 years of age, 5 feet 3 inches tall, has light hair, heavy sandy moustache, and weighs about 125 pounds. There is very little doubt that these are the men required in this city for numerous burglaries, including one committed at the Driard.

Lytton Assizes.

In June last year Mr. Walter Langley was convicted by Mr. Clement Cornwall, J. P., and fined $20 and costs on a charge of maliciously injuring ditch property claimed by Mr. John Dowling, better known as "Oregon Jack." Mr. Langley appealed at the time, but the hearing was subsequently postponed by direction of Mr. Justice Walkem, to give Mr. Dowling an opportunity of being present. The case came up for hearing at this Court, Mr. Langley being represented by Mr. Eberts. After a short argument to the effect that Mr. Cornwall had given judgement under one statute for a charge laid under a wholly different one, Mr. Walkem quashed the conviction with costs, observing that the Magistrate had wholly misapprehended the meaning of the statutes in question, and that he had confounded the Dominion with Provincial law on subjects entirely different to each other, viz: The destruction of ordinary property, and disputes as to water rights, which necessarily involved question of title; that even under the section of the Dominion statute which the Magistrate had referred to, he clearly exceeded his authority. The Judge also remarked that independantly of the statutes referred to, the conviction was bad on its face in more respects than one.

Members' Meeting.

There was a very pleasant meeting of the Y. M. C. A. at the rooms last evening. Mr. R. Erskine presided. The general secretary gave his report for September, which showed an average attendence at the reading room of 23 daily, and at the building 37 daily; attendance at the young men's meeting, 56; average 14; total number of members, 122, a gain of 10 over last month. There were interesting reports of the Seattle convention from Rev. John Reid and Messrs. Dee and Roper. Some matters of business were brought up, and the meeting adjourned for refreshments, which were served in the parlor. Another meeting is called for October 24th at which a new constitution will be adopted.

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low tests short weight alum or phosphate powders. SOLD ONLY IN CANS. ROYAL BAKING POWDER Co. 106 Wall Street, New York.
